

WE ALL WORRY ABOUT THE CONSEQUENCES OF AGING AND GETTING OLDER. SOME DAYS IT SEEMS AS IF THE YEARS WILL TAKE THEIR TOLL ON OUR BODIES, NO MATTER WHAT WE DO.

BUT NOW THERE'S A WAY TO COMBAT THIS AGING PROCESS. YOU CAN REVITALIZE YOUR SKIN AND BODY SHAPE, THROUGH A NEW TREATMENT CALLED ACCENT YOUR BODY FROM ALMA LASERS.

YOUR DOCTOR OFFERS *Accent Your Body*, AND HAS PROVIDED THIS BROCHURE FOR YOU, TO ANSWER SOME COMMON QUESTIONS AND LET YOU KNOW WHAT MIGHT BE POSSIBLE.

*Talk with Your Doctor
about Accent Your Body*

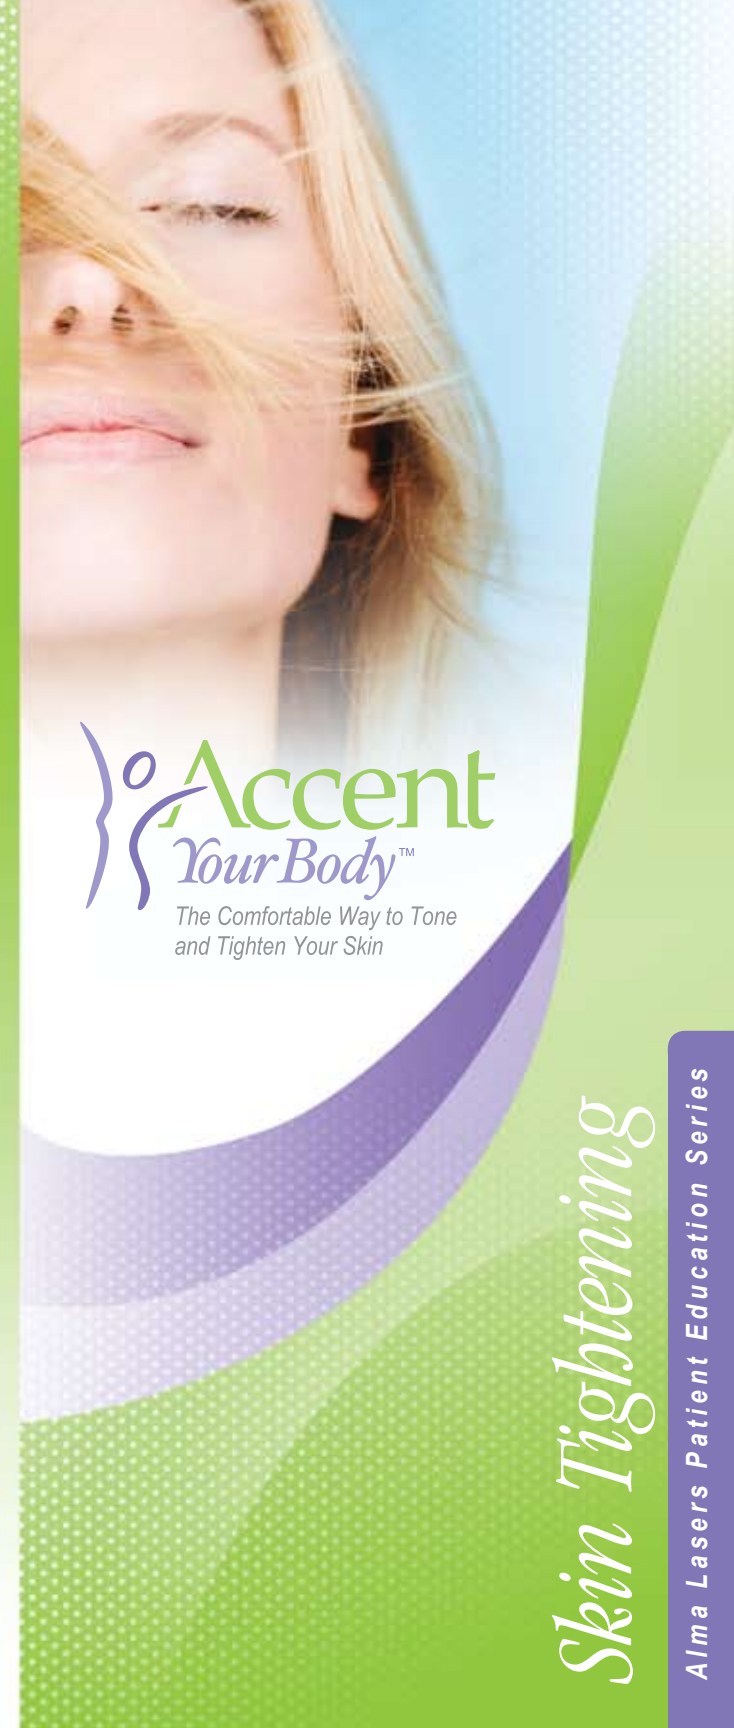

Ask your doctor if the Accent is right for your skin tightening needs, and then schedule an appointment to discuss the areas on your body you'd like to target.

Go online to learn more and imagine what *your* before and after photos might look like, at AccentYourBody.com.

Skin Tightening

Accent Your Body

Accent your Body™, or Accent™, provides controlled heat therapy to fight wrinkles and tighten skin on the face and body.

The treatment process is entirely comfortable, quick and virtually pain free. You'll go through a series of office visits to see the full benefits.

Since it's not surgery—there are no incisions, stitches or even anesthesia needed—there's no recovery time required. You can go straight back to work or home, with no one the wiser.

Tighter, Firmer, More Youthful Skin

Accent helps treat any problem areas you might have by tightening and firming any loose, wrinkled or dimpled skin *anywhere* on the body. The treatment is frequently used to improve the thin, delicate skin that develops on the face, neck and under the upper arms.

Many patients also seek treatment for a post-surgical or postnatal abdomen, thighs or buttocks. Accent has proven safe and effective for those areas, too.

Virtually Pain Free

Most people find Accent very comfortable. While pain tolerance is subjective, many patients often describe the sensation as a “warm massage.”

Targeted Heat Therapy

Accent uses cutting-edge medical technology, called radio frequency. It uses radio frequency energy to heat the dermis, your skin's inner layer. This targeted energy helps reorganize the cellular environment and stimulates your cells to produce new collagen.

New collagen is what gives you the smooth texture, elastic quality and beautiful radiance of youthful skin.

Depending on the size of the treated area, a treatment may take up to 45 minutes.

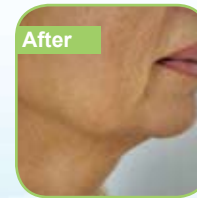

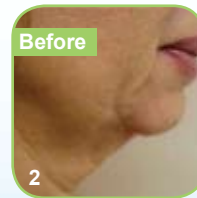

The Accent Difference: Visible Results

Accent provides visible results, because it is the only treatment of its kind to use a “dual layer” approach. This means it treats tissue at two different depths through both unipolar and bipolar radio frequencies. You'll feel your skin grow thicker, tighter and smoother because of the dual layer targeting.

Patients often see results immediately. Over time and with follow-up procedures, your skin will tighten even more as new collagen develops. You may notice a slight redness, which should disappear in less than 24 hours. Generally, three to five treatments at two week intervals will be required.

Safe and Comfortable

Accent is completely safe, cleared by the FDA, and has been used to improve the lives of thousands of patients worldwide, safely and successfully. The risk of significant side effects is extremely low.
